The 4-H World Understanding Mini-grants provide an opportunity to develop and demonstrate interest in international understanding in local communities through seed money grants of \$50 to \$200, provided by the IFYE Association of the USA.

Grants are available in two categories:

- To fund projects in Countries that have participated or are currently involved in IFYE programs.
- To fund projects in the United States that deal with intercultural activities and/or projects.

Proposed projects must be realistic, well thought out, involve both youth and adults in activities which promote 4-H cross-cultural understanding, and be presented in accordance with the attached mini-grant application. Individuals or groups, such as volunteer 4-H leaders, Extension Professionals, 4-H Clubs, State IFYE Associations, teen leaders, county teen councils and collegiate 4-H clubs are encouraged to apply.

Plan your project and then apply for a mini-grant to help fund it. Send proposals at least two months prior to your international activity, as a national committee must approve the application. The number of grants and amount awarded depends upon monies available. Return the application to the above address.

NOTE: Mini-grant funds cannot be used to pay for fees or expenses for current or future IFYE, LABO, or other 4-H exchange program participation, or for IFYE Alumni social events, or for activities which harbor no cross-cultural education.

An important requirement of the grant is that a final report including pictures (print or slides) must be submitted no later than one month following project completion. This report will provide a model for future 4-H World Understanding Projects.
